OTHER SITUATIONS TO PLAN FOR

Credit/debit card lost or stolen	Save your card issuer's international collect-call number (on the back of the card or in your bank app) before you leave — the domestic customer-service line may not connect from Italy.
Travel insurance	Write your policy's 24-hour assistance number down separately from your phone, in case the phone is lost too.
STEP enrollment (free, before you go)	step.state.gov — lets the U.S. Embassy send you security alerts specific to Rome and Sicily during your trip.
Police report for stolen items (denuncia)	Needed for insurance claims. File at any Polizia or Carabinieri station in Rome, Palermo, or Catania; the "YouPol" app can also help.

BEFORE YOU GO

- Photograph your passport's photo page and insurance card, and store the photos in cloud storage — not only on your phone.
- Save every number on this sheet into your phone's contacts before departure; coastal Sicily can have patchy signal.
- If your phone and cards are stolen together, your hotel front desk or host is often the fastest path to reaching your bank or the embassy.
